

Today, the Centers for Medicare & Medicaid Services issues new recommendations specifically targeted to communities that are in Phase 1 of the Guidelines for President Trump's Opening Up America Again with low incidence or relatively low and stable incidence of COVID-19 cases. The recommendations update earlier guidance provided by CMS on limiting non-essential surgeries and medical procedures. The new CMS guidelines recommend a gradual transition and encourage health care providers to coordinate with local and state public health officials, and to review the availability of personal protective equipment (PPE) and other supplies, workforce availability, facility readiness, and testing capacity when making the decision to re-start or increase in-person care.

The new recommendations can be found here: <https://www.cms.gov/files/document/covid-flexibility-reopen-essential-non-covid-services.pdf>

The Guidelines for Opening Up America Again can be found here: <https://www.whitehouse.gov/openingamerica/#criteria>
